- *The data are processed and stored through electronic means using a special software;*
- *Specific security measures are in place to prevent data loss, illegal or inappropriate use and unauthorised access;*
- *Your personal data collected, including through the completion of the questionnaire, will be kept for the time strictly necessary for the Project and immediately thereafter they will be destroyed or used anonymously for research purposes by the Consortium;*
- *You have the right to obtain the rectification and erasure of your personal data by writing to the following e-mail address: piermario.perrone@unimi.it or marco.simonelli@iss.it*

I Accept

Dear colleague,

We would like to invite you to participate in this survey which is part of the European Joint Action to maximise the impact of the EU Global Health Strategy (JA GHI), funded in the framework of the EU4Health Programme.

The JA GHI is intended, among other things, to enhance the knowledge among relevant stakeholders within EU member states and outside of the EU of the EU Global Health Strategy (released in November 2022, available at: https://ec.europa.eu/commission/presscorner/detail/en/ip_22_7153).

The present survey is intended to improve our understanding of the current level of awareness and knowledge, and the current level of alignment of European stakeholders' priorities and activities with the EU Global Health Strategy.

The survey includes 12 questions, divided under the following four sections:

Section 1 – General information;

Section 2 – EU Global Health Strategy knowledge and alignment (7Q);

Section 3 – Promoting and implementing EU Global Health Strategy (5Q);

Section 4 – Global health players, policymaking and financing mechanisms in your country (2Q).

Please take your time to consider each question and provide genuine responses on behalf of the institution you belong to. The questionnaire will take about 10 minutes of your time to be completed. We strongly encourage you to provide additional information, where asked for it.

1 General information

(It is not mandatory to fill in this part with personal data such as First and Last name, Position, E-mail, but having them would be an added value in the view of creating a database of relevant stakeholders in Global Health, also for the benefit of the European Commission. Mandatory fields are only those marked with an asterisk*)

* Country:

Italy

* Organization:

ProMIS

* Type of institution (e.g., Government ministry, government agency, university, etc.):

Public - national network

Departmental Office:

First Name:

Lisa

Last name:

Leonardini

Position:

Technical Coordinator

E-mail to contact person:

promisalute@regione.veneto.it

2 EU Global Health Strategy knowledge and alignment

(this section aims at assessing the extent of knowledge and alignment of EU Stakeholders with the EU Global Health Strategy)

* Is your institution aware of the existence of the EU Global Health Strategy 2023-2027 and of its content?

Maximum 1 selection(s)

- Yes, very well and also know the content of it
- Yes to some extent (only came across some official statements, posts regarding it but I/we do not know the strategy in depth...)
- No
- I don't know

* How has your institution become aware about it? Through...

- EU institutional or communication channels
- Conferences
- Other

* Please specify which channel

European Commission

* How does your institution's work align with the EU Global Health Strategy? Kindly select all the principles that are in alignment with the priorities of your institution. The 20 principles of the EU Global Health Strategy are reported below:

- Prioritise tackling the root causes of ill health, paying particular attention to the rights of women and girls, and to vulnerable populations and disadvantaged groups.
- Improve equitable access to a full range of essential health services from health promotion to disease prevention and affordable quality treatment, rehabilitation and palliative care to fight communicable and non-communicable diseases.
- Improve primary healthcare with built-in surge capacity, and enhance core public health capacities to meet the requirements of the International Health Regulations.
- Foster digitalisation as a fundamental enabler.
- Boost global health research to develop the technologies and countermeasures which are necessary to improve health.

- Address workforce imbalances and foster skills.
- Strengthen capacities for prevention, preparedness and response and early detection of health threats globally.
- Work towards a permanent global mechanism that fosters the development of and equitable access to vaccines and countermeasures for low- and middle-income countries.
- Negotiate an effective legally binding pandemic agreement with a One Health approach and strengthened International Health Regulations.
- Build a robust global collaborative surveillance network to better detect and act on pathogens.
- Apply a comprehensive One Health approach and intensify the fight against antimicrobial resistance.
- Link effectively all policies and measures that have an impact on global health within the Commission, EU agencies and EU financing institutions.
- Better link and coordinate policies and measures of the EU and its Member States to speak with one voice and deliver effective action worldwide.
- Support a stronger, effective and accountable WHO.
- Steer the new global health governance by filling gaps and ensuring coherence of action.
- Ensure a stronger EU role in international organisations and bodies.
- Expand partnerships based on equal footing, co-ownership, mutual interest and strategic priorities.
- Strengthen engagement with key global health stakeholders.
- Enhance EU finance for global health with maximum impact.
- Assess progress and ensure the accountability of the EU's global health action through permanent monitoring and assessment.
- None.

* Are you aware whether your country has a National Strategy for Global Health?

Maximum 1 selection(s)

- Yes, my country has a stand-alone National Strategy for Global Health
- Yes, but embedded in another strategy/policy
- No, my country does not have a National Strategy for Global Health
- I do not know

* Do you think it might be useful and/or important to have a national strategy for Global Health?

Yes, we think that to have a national strategy very linked to the EU Global health is very important.

* Do you think it is important that national and EU Global Health strategies are aligned? (Please explain why)

yes, the alignment is very strategic in order to complement initiatives, to organize local services addressed to global challenges as well as to efficiently use and plan investment

* Are you aware if your country has a Global Health Ambassador (*an individual using their influence to raise awareness of global health issues and advocate for solutions, collaborating with various stakeholders on an international scale*)?

Maximum 1 selection(s)

- Yes, my country has a Global Health Ambassador
- No, my country does not have a Global Health Ambassador
- I do not know

Do you also know what their role is? If yes, please specify:

* He participate actively to the dedicated JA and organize initiatives/events in order to promote the Strategy

Please report 3 priority areas of work your institution has on GH:

	Priority Areas
1 *	governance
2 *	training/capacity building
3 *	information/communication

3 Promoting and implementing EU Global Health Strategy: (this section aims at assessing communication channels and networks to be used to foster information on the EU Global Health Strategy)

* Do you agree with the need to further disseminate information to stakeholders (governments, agencies, civil society partners, global partners, citizens etc.) about the EU Global Health Strategy and its contents?

- Yes
- No
- I do not know

* To whom in particular should this communication be addressed? Please specify:

policy maker, technicians as well as wide public

* Which communication channels should be used?

institutional channels and scientific/professional journalism

* How can the EU Global Health Strategy implementation be strengthened (in terms of coordination of actions, follow up, dialogue with stakeholders) considering already standing structures and mechanisms, and avoiding further bureaucracy and unnecessary costs? Please specify:

at national level, by adopting a National Plan on governance.
at european level, by coordinating/monitoring each national plan and by creating a practice community

* Please list the most important communication channels your organization uses to receive, provide, share information on relevant Global Health work

- Official publications/documents
- Institutional meetings
- Conferences/fora
- Official website
- Scientific publications
- Social media

- Webinars
- Press releases
- Reports
- Video content
- Podcast
- Newsletter
- Others

Please specify

capacity building

Please list some of the most relevant initiatives (strategy documents/ activities /programs) your country has in relation to Global Health Strategy

	Year	Name of Document	Main (responsible) stakeholder	Link to the document	Priority
1	2026-2030	Piano Nazionale Verso la salute globale (in drafting)	National Public Institutions: Ministero della salute, Istituto superiore di Sanità, Agenzia Nazionale per i sistemi sanitari regionali, Istituto nazionale salute, migrazioni e povertà, Agenzia Italiana per la cooperazione alla sviluppo, ProMIS (all italian Regions)	in draft (reserved)	very high

- * Is your institution involved in reporting to EU organisations /institutions about GH initiatives and its implementation?
- Yes, my institution is directly involved
 - Yes, but my institution is indirectly involved
 - No, my institution isn't involved
 - I do not know it

4 Global health players, policymaking and financing mechanisms in your country

(this section aims at mapping key stakeholders in global health at country level, also in order to build an “address book” for future coordination and communication activities based on the Global Health Strategy)

- * Please identify up to five key institutions, agencies or other actors (public and/or private) in your country holding major responsibilities for launching, financing, implementing Global Health initiatives/projects. Please specify (your own institution can also be listed):

Ministero della salute
 Istituto superiore di sanità
 Agenzia Nazionale per i sistemi sanitari regionali
 Istituto nazionale salute, migrazioni e povertà
 ProMIS

- * Is there a formal or informal coordination mechanism among these actors?

Maximum 1 selection(s)

- Yes, formal
- Yes, informal
- No
- I do not know

* Please describe briefly and if possible, provide contact information:

These actors are working together in drafting the national plan

* Additional information (optional):

no

5 Thank you for taking the time to complete the questionnaire and for your dedication.
